

# Welcome

to continuous-delivery-slides

Version: 201909181120-4348388-SNAPSHOT

Realised using [reveal.js](#).

Write your slides in [GitHub-flavored markdown](#).

## Hotkeys

- S show Speaker Notes
- ? show all Hotkeys
- Esc show slide overview ("grid")
- Cursors: Navigation (on slides "grid")
- Space next slide

**Bellow (separated by three empty lines)**

Emojis                            

Font Awesome:

 [twitter.com/cloudogu](https://twitter.com/cloudogu)

 [github.com/cloudogu](https://github.com/cloudogu)

## To the right (separated by - - -)

Syntax highlighting

```
String hello = "world";
```

Quotes:

A container image is a lightweight, stand-alone, executable package of a piece of software that includes everything needed to run it: code, runtime, system tools, system libraries, settings.

## Separate files are placed to the right

Don't forget to add the markdown to `index.html`!

### Images

Image via Markdown

The images are floating right and left of this text via css

# Font

- Normal
- red

Line Break after two empty blanks

- Smaller text

## Ordered List

- 1 Ordered
- 2 List

Link to [previous slide](#) (by id)

## Video

## Different css on document of the slide

Nice gradient!
